JOHN NJOROGE

Software Engineer

0717 018 000 • jmbuguah59@gmail.com • linkedin.com/in/john-njoroge-31a66b418

PROFESSIONAL SUMMARY

Software Engineer with a BSc in Computer Science and over five years of experience across software development, systems engineering, and quality assurance in banking and electoral-technology environments. Proficient in Python, Java, Rust, PHP, and Django, with hands-on exposure to system architecture, cloud fundamentals (AWS Certified Cloud Practitioner), and deployment pipelines. Brings a strong engineering foundation reinforced by deep QA discipline — skilled at root-cause analysis, structured testing, and debugging — producing software that is reliable, well-tested, and built to scale. Comfortable working across the development lifecycle, from design and implementation through verification and production support.

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, Rust, PHP, Django

Cloud & Systems: AWS (Cloud Practitioner), system architecture & deployment pipelines, OS installation & configuration, network diagnostics

Engineering Practices: Software Testing Life Cycle (STLC), defect lifecycle management, requirement-based planning, root-cause analysis, debugging

Testing & QA: Manual, functional, exploratory, regression and UAT testing; test case design; JIRA defect tracking

Tools: JIRA, Git, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

ICT Support & Quality Assurance Officer — Independent Electoral and Boundaries Commission (IEBC) *Mar 2026 – Present*

- Support and troubleshoot electoral ICT systems across hardware, software, and network layers, applying systematic root-cause analysis to resolve recurring faults under tight operational deadlines.
- Test, verify, and validate functionality of voter registration kits and ICT equipment prior to deployment, identifying defects and escalating issues to maintain system integrity.
- Conduct structured preventive maintenance and diagnostics across distributed infrastructure, ensuring high availability of mission-critical systems.
- Manage data handling, access control, and ICT asset inventory in compliance with regulatory and security requirements.
- Document issues and resolutions systematically, coordinating fixes with technical teams and external vendors.

Software Quality Assurance Tester — Equity Bank Kenya Ltd *Jan 2023 – Jun 2024*

- Tested and validated consumer-facing mobile banking applications and web platforms end-to-end, working closely with developers to identify and resolve functional, usability, and security defects prior to release.
- Analyzed core banking systems and internal infrastructure, isolating critical defects in transaction processing logic and customer service workflows through systematic debugging.
- Designed and executed test cases and scripts for new features and system upgrades, covering functional, regression, and user acceptance testing (UAT).
- Logged and tracked defects in JIRA with detailed reproduction steps and severity classification, collaborating directly with developers and business analysts to resolve issues within SLA timelines.
- Validated digital payment integrations, including M-Pesa and interbank transfer systems, ensuring end-to-end transaction accuracy and data integrity.

- Contributed to post-release monitoring, diagnosing production issues and escalating fully documented findings to the development team.

Branch Technical Assistant — Equity Bank Kenya *Aug 2019 – Dec 2022*

- Installed, configured, and upgraded operating systems, business applications, and peripheral devices across branch infrastructure.
- Verified system configurations and access controls following installations and upgrades, confirming functionality before handover.
- Diagnosed and resolved hardware and software issues for end users, tracking problems methodically through to closure.
- Maintained ICT asset registers and managed decommissioning of obsolete equipment in line with internal policy.
- Prepared and reviewed branch financial reports with strong attention to detail and numerical accuracy.

EDUCATION

Bachelor of Science in Computer Science
Dedan Kimathi University of Science and Technology — Second Class Honours (Lower Division) • 2015–2018

CERTIFICATION

AWS Certified Cloud Practitioner — Amazon Web Services • Valid through December 2027
